recipe (c) 2012 Donna Constantino. All Rights Reserved. I made this soup just before my moms 80th birthday and it was perfect for her. The broth is flavorful and the flavor of the veal is exquisite. We started to make this soup since it was also a graduation gift for my mother. I love this soup! We have it for lunch every once in a while. It's very nice for a cold day or after a nice dinner. I don't like to cook on Sunday, so when I want this soup, I make it on Friday. This time I cooked it with the chicken meat. I can see why this recipe was so popular! I've always loved this soup and it's great to have it with the Italian flatbread. I added fresh parsley and sage at the end, but you can put whatever you like. One note – I like to use 1 tablespoon of olive oil instead of 1/2 cup. It would make the soup much more creamy. Your soup looks fantastic. I have never been a fan of stew meat, and I had to try this one. After reading the reviews I was very worried that this would be tough, but it was actually very good. Very mild flavor, and the texture was very good. I am definatley going to use this recipe again. I love this recipe but it has been very very cold here, and I couldn't find short ribs in the stores. I found only one but I used veal short ribs. It was delicious, I served it with pasta and some flatbread.Pseudo-osteopetrosis in a cat. A 13-year-old, female, domestic shorthair cat had hypercalcemia, hypophosphatemia, and hyponatremia. Radiographs and bone biopsy showed a thickened cortex, normal

osteoid, and increased osteoblasts. The cat had similar findings to patients with pseudo-osteopetrosis, a rare disease of unknown cause, in which the development of osteoclasts causes chronic bone resorption and hypocalcemia. This is the first case report of pseudo-osteopetrosis identified in the veterinary literature. While the cryptocurrency world is filled with an abundance of cautionary tales about blockchain technology, we still can't help but wonder if the industry will one day replace the old financial hierarchy with its own.
